ITMA/11 /2019      CIRCULAR NO.227/2019      25<sup>th</sup> February 2019

To All Members,

Sub: Draft Technical Parameters for 33KV Distribution Transformer  
and AC static transformer operated watt hour and VAR-hour  
meters.

Dear Member,

We came to know that Government e- market place which is an National Public procurement portal and an online market place for Central and Government Ministries/Departments, Central & State Public Sector Undertakings for procurement of commonly used goods and services.

We understand that GeM has constituted a working group to identify and prepare the technical parameters for electrical equipments available for sale online through GeM portal. The meeting of the working group was convened on 18<sup>th</sup> January 2019 wherein a draft technical particulars for 33KV DTs has been prepared based on the relevant Indian standard IS:1180 Part 1/2014 and input from REC.

Accordingly we requested Chief Executive Officer of GeM to include ITMA also in the GeM working group as one of the members since we represent the transformer manufacturers pan India and would be in a position to give proper feedback for preparation of the technical specifications as we are major stakeholder for evolving technical parameters with CEA , BIS, BEE and REC the agencies of Govt of India besides the distribution companies of power known as discoms/utilities at state level power department

They have acceded to our request and have included ITMA in the working group of GeM and have forwarded the draft Technical parameters for 33 Kv DTs (copy attached) as discussed and finalized in the working group meeting held on 18<sup>th</sup> January 2019.

You are requested to kindly go through the technical parameters and suggest changes if any to ITMA by 28<sup>th</sup> February 2019 so that the same could be conveyed to GeM for further necessary action at their end.

Thanking You

With best regards

**[B.LAL]**
